permitted to the commission first agreed upon and ordered a verdict for the defendant.

The first criminal case was State vs. H. A. Gled, for furnishing intoxicating liquors. The State claimed that Mr. Gled, on the evening of the 5th day of January, sold a quart of liquor to one Henry Beard of Barton Landing, and Mr. Beard testified to that fact. The defendant denied by his evidence that he had sold liquor at the time and place mentioned and further showed that he had been intoxicated before he--Gaylor--was introduced. Some other evidence was introduced, the above, however, being the substance of the case. The jury, after being out a short time, returned a verdict of "not guilty." E. A. Cook, state's attorney, for the state, H. A. Black for the defendant.

Following this case a jury was drawn for the case of State vs. Sargent, burglary. The defendant, Sargent, is charged with the burglary of E. F. Mathews' store at Barton Landing on the night of Oct. 3, 1905. Little progress has been made on this case as yet.

The case of State vs. Catharine vs. Catharine was argued on Friday afternoon, and the case being granted a divorce.

Several criminal cases are yet to be disposed of.

We are glad to see the spirit of enthusiasm with which the newly appointed fire wardens are taking hold of their work. Few matters of village consequence are as important as this of proper fire protection. The many examples of heavy losses by fire in the large and small towns make this subject one in which every person in town should be deeply interested. Make the meeting a big one.

Probably the largest school meeting ever held in the history of the incorporated school district was held Tuesday evening when the question of a new building came up. The regular election of officers took place in the election of F. W. Baldwin as moderator; J. A. Pearson, clerk; F. D. Pierce, treasurer; and for trustees the board stands E. W. Barron, C. E. Hamblet and J. A. Pearson. A tax of 60 was raised and it was voted to hold seven schools of 36 weeks each with ten teachers as heretofore. The matter of a new school building then came before the meeting and after a discussion of the proposition and an explanation of how matters stood and our relative size with other schools a ballot was taken and the vote stood 111 to 30 to build. A committee was then voted in to investigate location, cost, size of building and other matters pertaining to the new building and report at a future meeting April 24th. The committee is G. A. Drew, J. M. Elliott and

E. W. Barron. The sum of \$30,000 was voted for the building, but the feeling is quite general that at the adjourned meeting the amount will not be limited to that sum. Barton is to be congratulated on the fact that she has voted to erect a new school building, which is another round in her ladder of progress.
